

Misson

Safety is our passion. At PinPoint we are dedicated to keeping everyone safe and accounted for. Our goal is to provide a low-cost, easy-to-use application that makes it simple for organizations to account for their employees, gauge their health & mental wellness, and communicate in real-time using any smartphone, laptop or device available to them.

Backed by 30 years of Safety Training & Enterprise Compliance Technology, We strive to provide exceptional support to you, to ensure that you feel comfortable using our technology, for when it matters most.

DURING A LOCKDOWN SCENARIO:

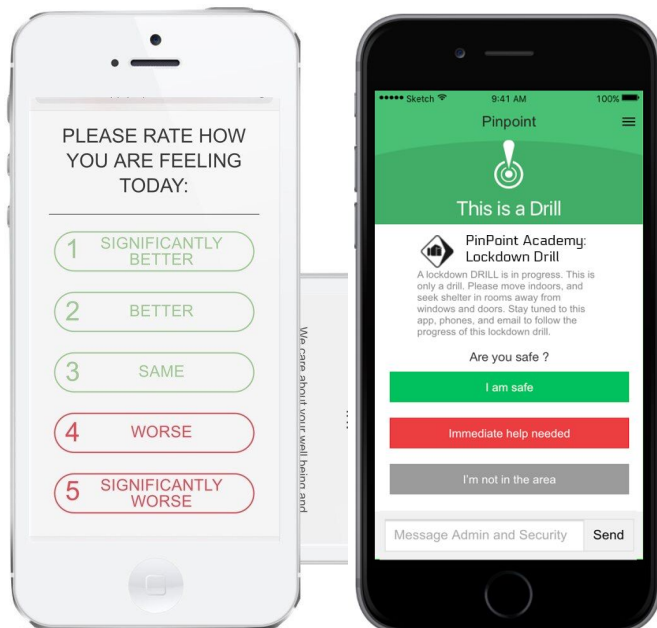

DO YOU KNOW WHERE YOUR PEOPLE ARE?

CAN YOU COMMUNICATE WITH YOUR STAFF?

CAN YOU RELAY INFORMATION TO LAW ENFORCEMENT?

According to the **Occupational Safety and Health Administration (OSHA)** at the **U.S. Department of Labor** :

"The best way to prepare for an emergency is before it happens."

PROBLEM

Organizations are having to comply with employee wellness screening regulations as offices re-open. Additionally, the effects of COVID-19 on Mental Health statistics are staggering.

In the event of an Emergency Situation, Admins are not able to pinpoint the location of individuals or easily open a line of communication during a drill or active shooter situation.

In today's world, this inefficiency could result in catastrophe.

Wellness & Health Screening

Emergency Notification

Compliance Tracking

SOLUTION

PinPoint enables accountability for individuals and allows users to communicate crucial and secure information during an emergency, drill, or wellness screening.

Our platform is HIPAA-compliant, simple to use and easy to implement. Results & rosters are available in real-time for tracking compliance & reporting.

PinPoint can be conveniently accessed on any computer, tablet, or smartphone.
